Pause / ride actions first

Resume and End ride share the top row. Controls use aligned value wells.

Before / main after #203

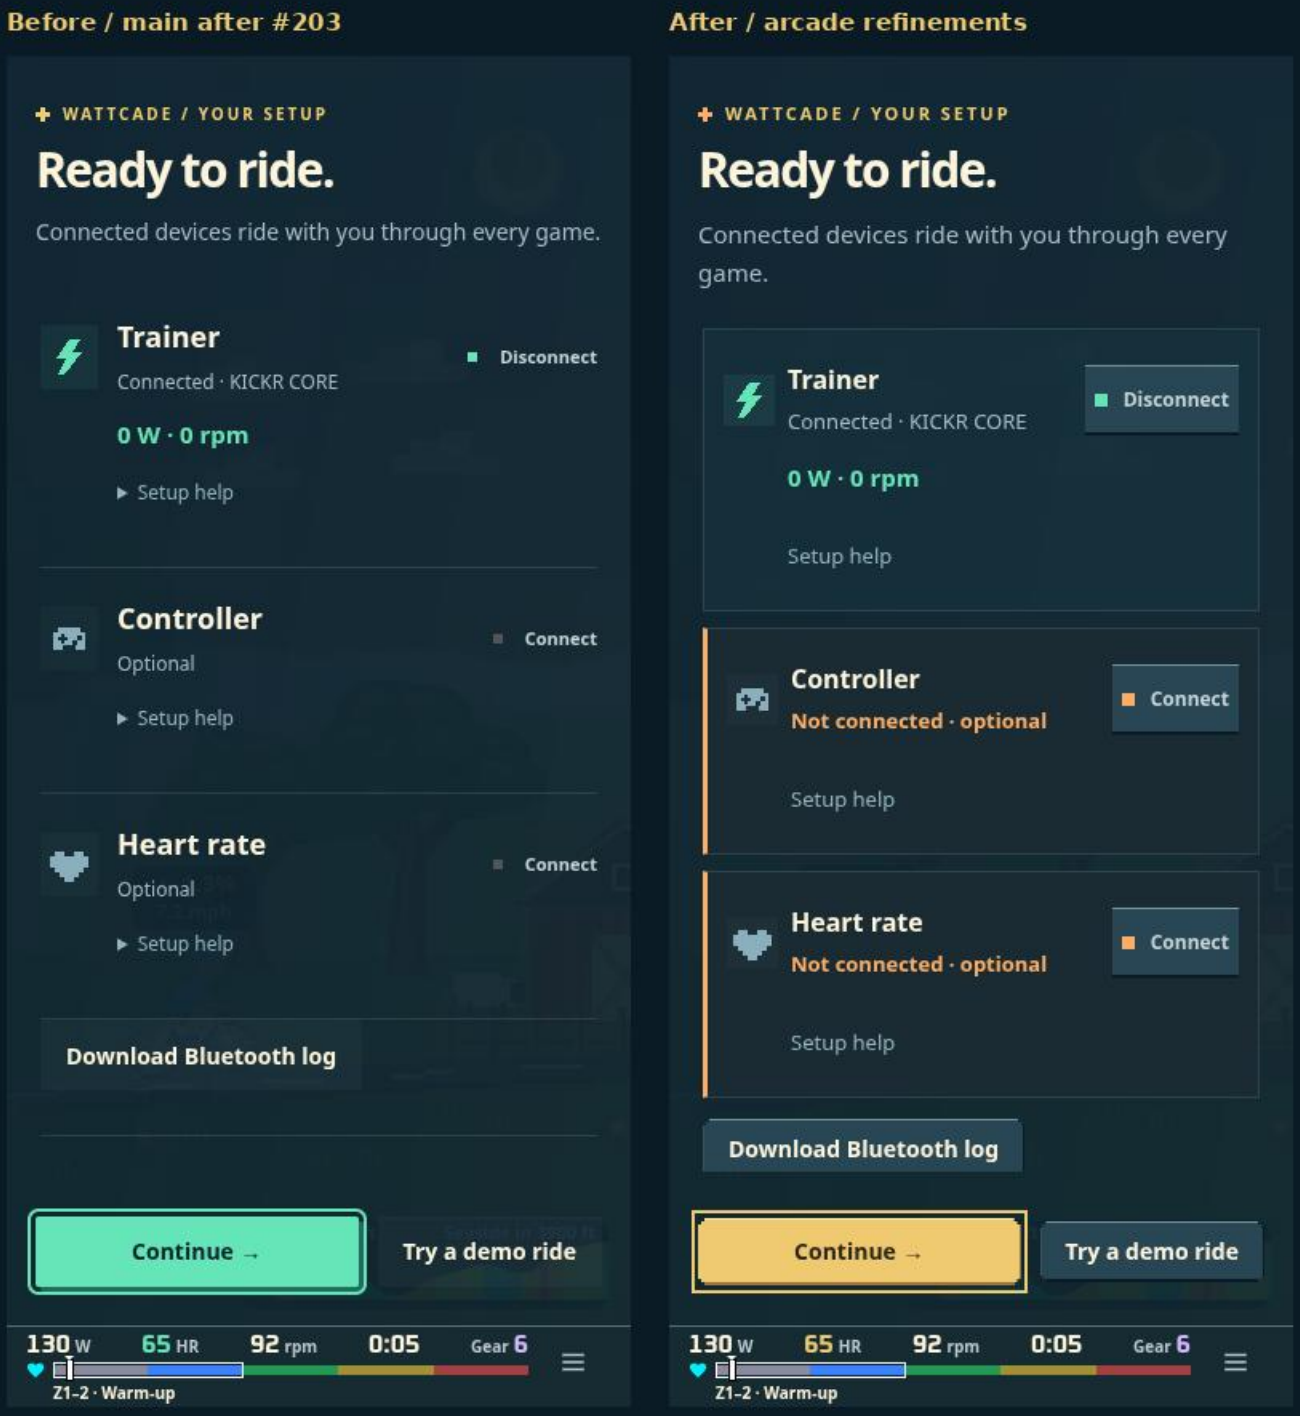

After / arcade refinements

Actual production components / same viewport and review fixture

Connections / status at a glance

Absent peripherals stay explicit; connected devices use mint.

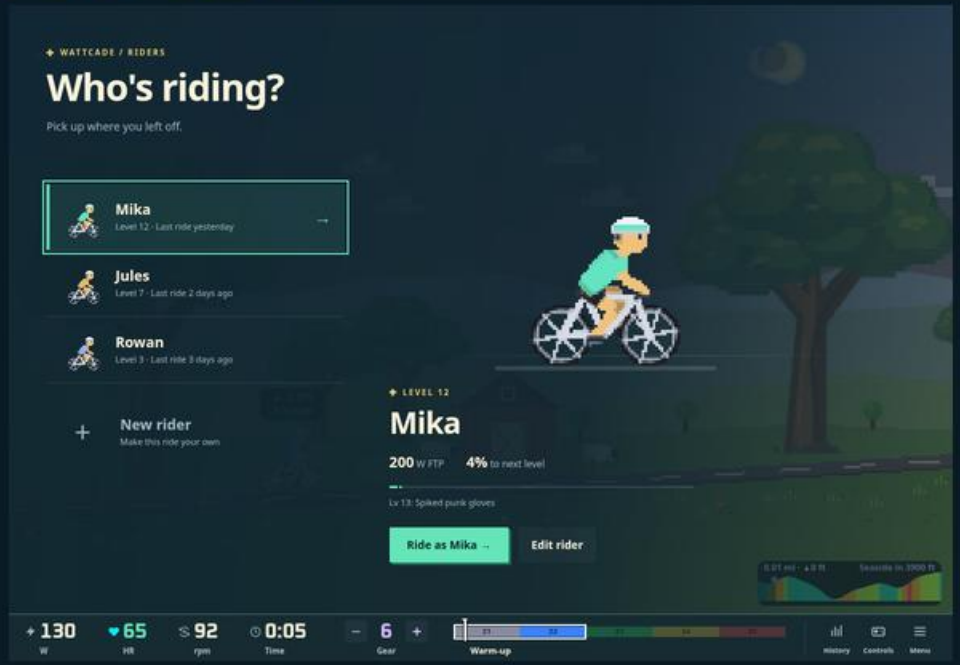

Actual production components / same viewport and review fixture

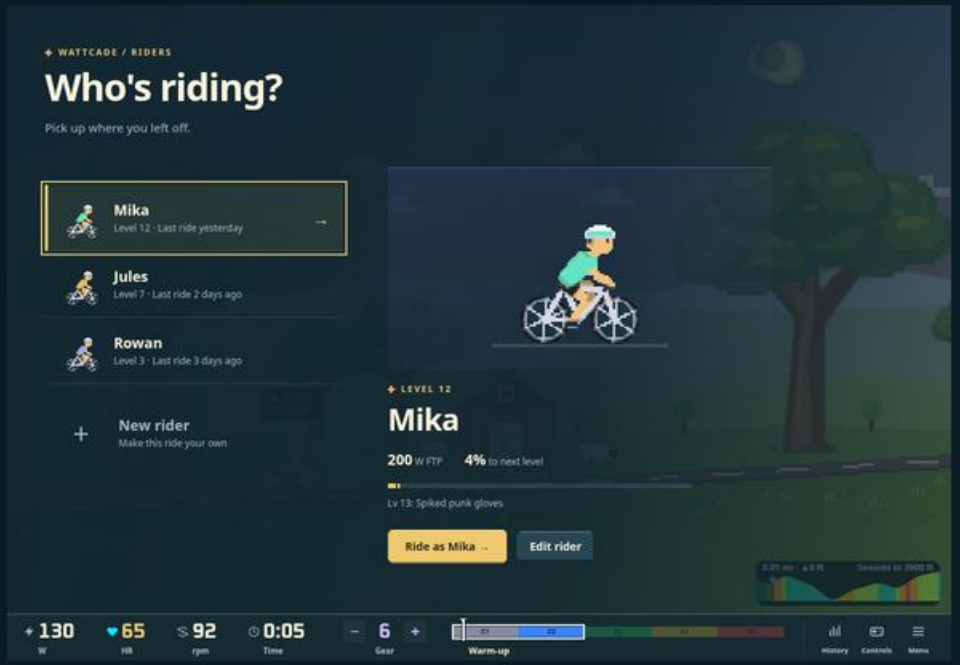

Riders / bounded pixel artwork

Square portraits keep the rider proportionate on landscape screens.

Before / main after #203

After / arcade refinements

Actual production components / same viewport and review fixture

Arcade / lighter cards, clear browsing

Swipe or arrow keys change selection; small orange details add warmth.

Before / main after #203

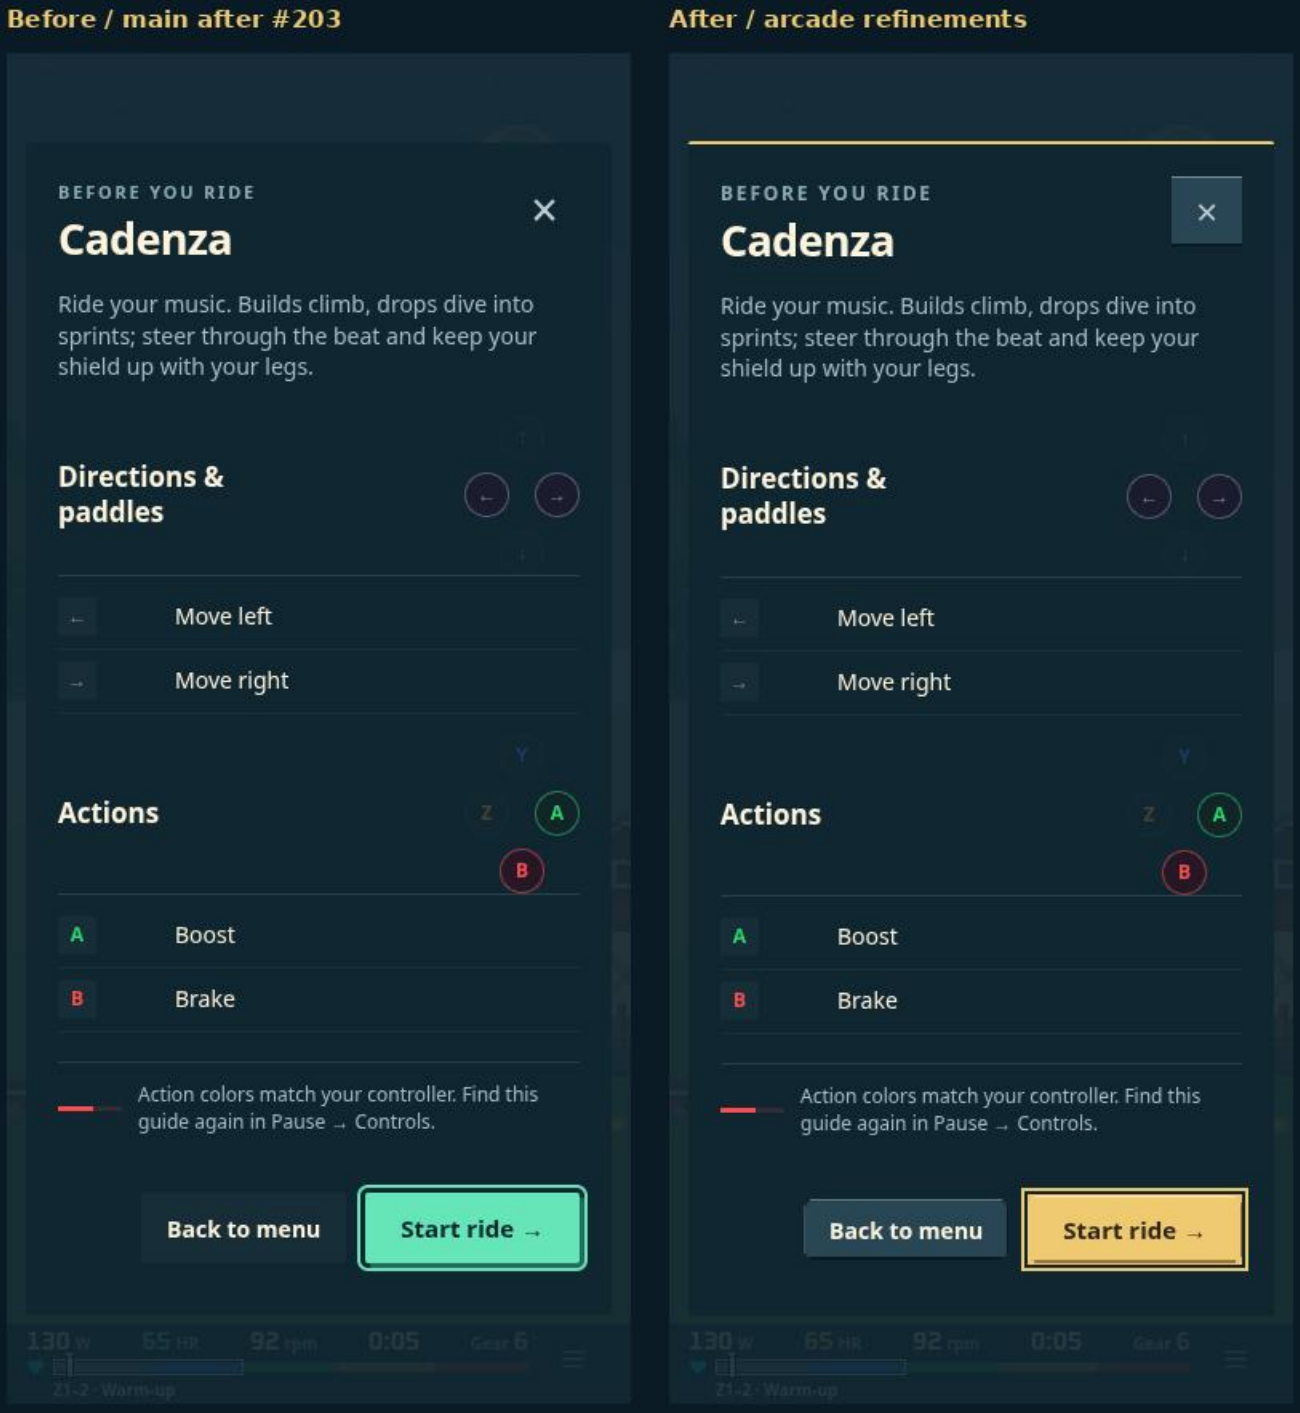

After / arcade refinements

Actual production components / same viewport and review fixture

Controls / consistent chrome

Readable labels and the same shallow keys as the rest of the menus.

Actual production components / same viewport and review fixture

Rewards / gold selection, purple atmosphere

Gold marks the choice. Purple belongs to labels and the rider backdrop.

Before / main after #203

LEVEL 5 REWARD

Choose your level 5 reward

Pick one. The others return in a later pick.

Bikes
Beach Cruiser
Swept bars, whitewalls, no hurry.

Helmets & hats
Cowboy Hat

Tops
Racerback tank

Preview on your rider
